

# COME VOLUNTEER!

## The Arc of the Ozarks

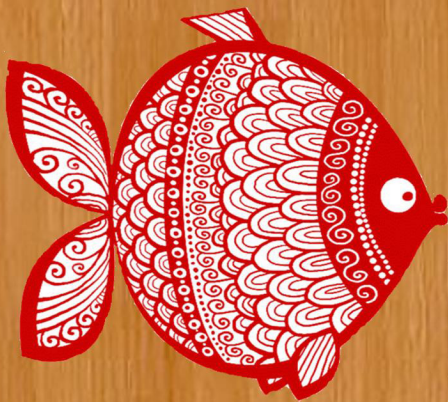

### JOIN US

*The Arc of the Ozarks is looking for dedicated volunteers for our education and recreation programs. The Arc is a non-profit organization that supports individuals with developmental disabilities. We have several programs that would greatly benefit from your volunteering.*

### SATURDAY RECREATION

This program offers a full day of fun (10am - 3pm) for individuals of all ages with developmental disabilities. We offer a chance to discover sites in the local area and enjoy spending time with friends. Participants engage in activities designed to provide appropriate challenges that increase self-esteem and independence. Activities include aquatics, art, exercise, cooking, and much more.

### LIFE TIME OF LEARNING

Students are given the opportunity to learn in a hands-on manner. The classes are broken down into subjects that include reading, exercise, art design, and cooking. Classes meet one night a week during the school year and are offered to clients 18 years of age and above.
